magisso®

SELF COOLING CERAMICS

The **MUST HAVE** for all the things you need to serve cool and fresh during fine dining or everyday meals. And with the Naturally Cooling Ceramics you don't need a freezer or a fridge to keep foods deliciously cool. It's so simple.

Just soak the Naturally Cooling Ceramics in water for a minute or two before use. It will then keep the content cool throughout breakfast, lunch or dinner. You can also create your very own design or write a message on the side of the Ceramics with chalk. Cool and clever. Naturally
