CONVECTION OVEN

MARATHONER GOLD ELECTRIC, DOUBLE DECK

ES/20SC, ES/20CCH

EB/20SC, EB/20CCH

Standard Features

- ENERGY STAR® qualified (standard depth only)
- 11kW high efficiency heating elements
- Available standard and bakery depths
- Double deck convection oven is 64" in height
- Patented "plug-in, plug-out" control panel easy to service
- Stainless Steel front, sides and top
- Dependent doors with windows (Full 180° opening)
- Coved, fastener-free, porcelain interior
- Heavy duty stainless steel door handle
- Soft Air, two speed, 1/2 hp, fan motor
- 11-position rack guides and 5 plated oven racks
- Forced cool down fan mode
- Oven "ready" light -cycles with burners
- Interior oven lights
- Stainless steel rear jacket

Available Controls

SC-Standard Controls

140°F to 500°F solid state thermostat and 60 minute mechanical cook timer.

CCH-Cycle / Cook & Hold Control

150°F to 500°F temperature controller with 140°F to 200°F "Hold" thermostat Dual digital display shows time and temperature. A fan cycle timer pulses the fan.

(ES20/SC shown with optional casters)

STANDARD CONSTRUCTION SPECIFICATIONS

Exterior Finish: Stainless steel front, top, sides and rear jacket.

Doors: Dependent doors with windows. Stainless steel construction, heavy-duty welded steel frame and 5/8" diameter full-length hinge pin.

Electrical System: Terminal connections are located below oven section and are accessible from the front of the oven. These sheath type electrical heating elements located at the rear of the oven function as a single heating unit with a combined rating of 11 kW per deck. Available voltages include 208. 240, 380, and 480 VAC single or three phase, 50/60 Hz. Ovens equipped with 480VAC single or three phase heating elements use 240V controls and motors and do not require separate electrical lead wires.

Rack and Rack Guides: Heavy-duty removable wire rack guides spaced on 1-5/8" centers offer 11 different rack positions. 5 wire racks provided with each oven.

Blower Fan and Motor: 1/2hp, 2-speed motor, 1710/1120

Oven Heating: Oven heating is regulated by an adjustable solid state thermostat control. Blower fan circulates air within the cavity "scrubbing" heat to the oven interior for even heat distribution within the cavity. Manual reset high limit temperature control protects the oven from overheat condition.

Control Panel: Located of front, at right side of oven, away from heat zone. Removable panel opens downward for easy servicing.

Legs: 6" stainless steel legs standard.

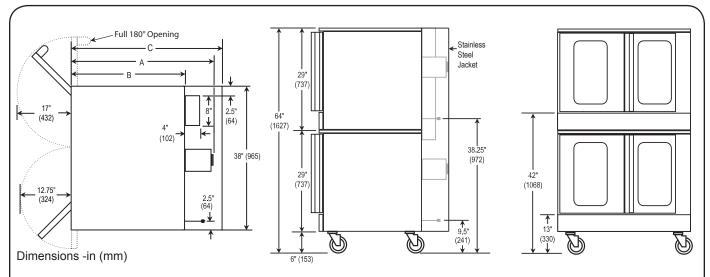

Note: Oven cannot be operated without fan in operation.

^{*} All units shipped single phase. Single phase units are easily converted to three phase.

MISCELLANEOUS

- Clearances from combustibles: Top, bottom, right, left
- Recommended install under vented hood.
- Check local codes for fire and sanitary regulations.

NOTICE:

Southbend has a policy of continuous product research and improvement. We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.

OPTIONS AND ACCESSORIES

- □ Stainless Steel oven interior
- ☐ Stainless Steel exterior bottom
- □ 208/240V 50/60 cycle (for use on 1 or 3 phase)
- □ Bolt-down flanged legs

- Swivel Caster front with locks
- Knocked down packaging
- Export Crating
- □ Extra oven racks
- Down draft diverter for direct flue
- □ 3/4" quick disconnect with flexible hose (specify length: 3ft, 4ft, or 5ft)
- □ 2" air insulation panel (stainless steel only)

INTENDED FOR COMMERCIAL USE ONLY. NOT FOR HOUSEHOLD USE.
