

SYRUP WARMERS

KEEP YOUR SYRUP HOT AND FRESH

There is nothing better than hot syrup on pancakes, waffles, or french toast. Nothing heats syrup better than a Syrup Warmer from Cecilware. These Syrup Warmers maintain a perfect serving temperature of 125°F, so syrup will not crystallize.

These beautifully finished, stainless steel warmers are available in 1 and 2 gallon sizes which are 120 Volt, single phase plug-in anywhere. The Tomlinson All Plastic Self-Closing faucet is standard on 1 gallon Syrup Warmers and the Tomlinson-S No Drip faucet is standard on 2 gallon Syrup Warmers.

Model #	Capacity	Diameter	Depth (Incl. Faucet)	Height	Watts	Ship Weight
SD1	1 gal.	7½"	10½"	13"	53	6 lbs.
SD2	2 gal.	9"	12"	17"	116	10 lbs.
