Traulsen shares your commitment to Corporate Sustainability initiatives and knows that it is more than just meeting the current and future regulatory requirements set by the EPA and DOE. We are committed to reducing global warming potential (GWP) and saving energy consumption while maintaining the performance and quality you have come to expect from Traulsen products.

Traulsen is proud to offer the North American market a broad selection of self-contained reach in and compact undercounter refrigeration with R290, a natural recurring refrigerant with a GWP of (3), the lowest currently available in our industry.

Standard Product Features

- · High Quality Stainless Steel Exterior Top, Sides & Door(s)
- Durable, Corrosion Resistant Anodized Aluminum Interior
- Provides NSF Standard 7 Performance, Even When Using
 6" Deep Pans A Traulsen Exclusive
- Front Breathing Self-Contained Refrigeration System
- Standard Work Height 34-3/8" (see "optional accessory kits for lower height casters to meet ADA requirements or provide lower work heights).
- Environmentally Friendly R290 Refrigerant
- Top Cut-Outs Accommodate Sixth Size Pans (divider bars and 4" deep plastic sixth size pans provided)
- Reinforced Pan Ledge (holds pans securely leveled)
- Stainless Steel Insulated Pan Lid with Two Open Positions
- · Reversible, Full Length White Nylon Cutting Board
- Self-Closing Stainless Steel Doors With Convenient Stay Open Feature @ 105 Degrees
- Metal Door Handles
- · Anodized Aluminum Interior Door Liners
- Interior Mounted Thermometer
- Two (2) Powder Coated Steel Shelves Per Door, Mounted On Adjustable Pilasters
- · Automatic Non-Electric Condensate Evaporator
- Magnetic Snap-In EZ-Clean Door Gasket(s)
- · 8' Cord & Plug Attached
- Set of Four (4) 4" Casters (6 for 60" & 72" models)
- Three Year Parts And Labor Warranty
- Five Year Compressor Warranty

Sustainability Features

- SNAP compliant R290 (GWP 3) Refrigerant EPA Rule 20
- All Metal Construction And Long Equipment Life Reduces Pressure On Landfills
- Real World Energy Efficiency Helps Reduce Fossil Fuel Emissions

Optional Accessory Kits*

- CASTER 5SET4 (four 6" high casters for 27", 32" & 48" models)
- CASTER 5SET6 (six 6" high casters for 60" & 72" models)
- CASTER SET3IN (four 3-1/2" high casters for 27", 32" & 48" models)
- CASTER SET4 (six 3-1/2" high casters for 60" & 72" models)
- CASTER SET2IN (four 2-1/2" high casters for 27" models)
- SHELF CPW1 (additional shelf for all 27" models)
- SHELF CPW2 (additional shelf for all 32" models)
- SHELF48 UPPER (upper shelf for all 48" models)
- SHELF48 LOWER (lower shelf for all 48" models)
- SHELF60 UPPER (upper shelf for all 60" models)
- SHELF60 LOWER (lower shelf for all 60" models)
- SHELF72 UPPER (upper shelf for all 72" models)
- SHELF72 LOWER (lower shelf for all 72" models)

*All optional accessory kits are shipped separately for field installation.

Factory Installed Options

- Stainless Steel Finished Back
- · Other Door Hingings

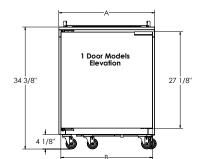

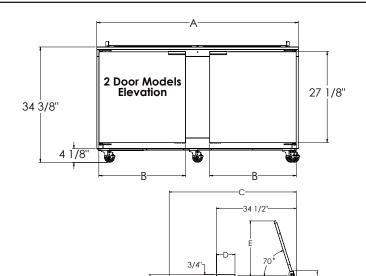

This unit is listed to UL 471, CSA 120 and NSF 7 by an approved NRTL. Consult the factory or unit data plate for approval information.

Specifications

Construction, Hardware and Insulation

Cabinet exterior front, one piece sides, pan lid, and doors are constructed of 22 gauge stainless steel. Cabinet interior and door liners are constructed of anodized aluminum. The exterior cabinet back and bottom are constructed of galvanized steel.

Doors self close at less than 90 degrees and also includes a stay open feature at 105 degrees. Gasket profile and Santoprene® material simplify cleaning and increase overall gasket life.

Both the cabinet and doors are insulated with an average of 2" thick high density, non-CFC, foamed in place polyurethane.

A 3/4" thick, full-length, reversible white nylon cutting board is supplied standard.

Pans & Cover

Each model is supplied standard with its full compliment of 4" deep plastic 1/6 size pans and stainless steel pan dividers. The insulated lift-up pan cover is constructed of stainless steel, and is easily removable for cleaning.

Refrigeration System-R290

A balanced, rear mounted, front breathing, self-contained refrigeration system using R290 refrigerant is provided. It features a capillary tube metering device, air-cooled hermetic compressor, a forced air evaporator coil and a non-electric condensate evaporator. An 8' cord and plug is provided. Standard operating temperature of the refrigerated base is 34 to 38°F.

Interior

Standard interior arrangements include two (2) powder coated wire shelves per door, mounted on pilasters. These are adjustable in 1/2" increments, allowing for a minimum of 1-1/2" spacing between shelves.

Warranties

Both a three year parts and labor warranty and a five year compressor warranty (self-contained models only) are provided standard.

NOTES:

- Overall depth figure includes standard cutting board.
- · Height shown when mounted on 4" casters.
- \cdot Based on a 90 degree F ambient and 20 degree F evaporator.
- · When ordering please specify: Voltage, Hinging, Optional Accessories and any additional warranties.
- This unit may be manufactured in other electrical characteristics and may have additional regulatory agency approvals. Consult factory for other electrical characteristics and agency approvals based on specific electrical and country requirements. (For exact electrical information and approval marks, always refer to the data label of the unit.)
- Continued product development may necessitate specification changes without notice.
