Underbar Refrigeration:Solid Slide Lid Glass and Plate Chiller/Froster

T-50-GC

- True's glass and plate chiller/ frosters are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.
- Large storage capacity to meet the supply and demand requirements during peak hours.
- Oversized, factory balanced, refrigeration system holds 0°F (-17.7°C) and below.
- Forced-air cooling, positively guided airflow provide efficient balanced temperatures throughout the cabinet. This unique design ensures fast frosting of dry glasses and plates.
- ▶ Exterior heavy duty, wear resistant laminated black vinyl front and sides, matching black aluminum back. All stainless steel countertop and lid(s).
- Interior long lasting, heavy duty galvanized steel.

STANDARD FEATURES

DESIGN

 True's glass and plate chiller/frosters are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC free) R404A refrigerant.
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser; maintains cabinet temperatures of 0°F (-17.7°C) and below.
- Sealed, cast iron, self-lubricating evaporator fan motor(s) and larger fan blades give True chiller/frosters a more efficient low velocity, high volume airflow design. This unique design ensures fast frosting of dry glasses and plates.
- Automatic defrost system time-initiated, time-terminated.
- Condensing unit accessed from behind front grill, slides out for easy maintenance.
- Forced-air cooling, positively guided airflow provide efficient balanced temperatures throughout the cabinet.

CABINET CONSTRUCTION

- Exterior heavy duty, wear resistant laminated black vinyl front and sides, matching black aluminum back. All stainless steel countertop and lids.
- Interior long lasting, heavy duty galvanized steel.
- Insulation entire cabinet structure is foamed-in-place using Ecomate. A high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.

SHELVING

Five (5) adjustable, heavy duty PVC coated wire shelves 15 %"L x 19 %"D (385 mm x 491 mm). Split shelf design allows for effective rotation of chilled smallware, working with already chilled plates and glasses on one side while chilling dry product on the other side.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Listed under NSF-7 for the storage and/or display of packaged or bottled product.

ELECTRICAL

 Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

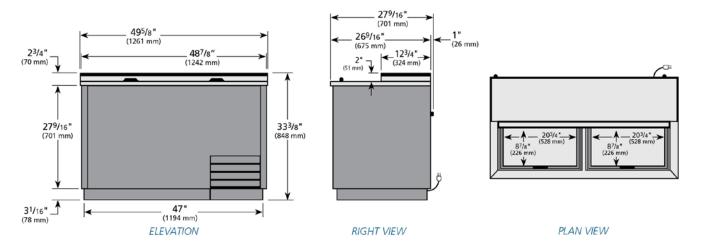

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply. \square 230 - 240V / 50 Hz.

- ☐ 6" (153 mm) standard legs.
- ☐ 6" (153 mm) seismic/flanged legs.
- □ 2½" (64 mm) diameter castors.
- □ 3" (77 mm) diameter castors.
- □ Ratchet locks and handles. Requires one per lid.□
- ☐ Remote cabinets (condensing unit supplied by others; system comes standard with 404A expansion valve and requires R404A refrigerant). Consult factory technical service department for BTU information. All remote units must be hard wired during installation.

PLAN VIEW

WARRANTY

Three year warranty on all parts and labor and an additional 2 year warranty on compressor. (U.S.A. only)
