Model: TDC-27

Dipping Cabinet: *Freezer*

TDC-27

- True's visual dipping cabinets are uniquely designed to provide the user maximum functional reliability in an attractive merchandiser to brilliantly display and serve ice cream product.
- Cold wall refrigeration system. Maintains -10°F to +8°F (-23.3°C to -13.3°C).
- Patented reversing condenser fan motors. Fan motors reverse during defrost off cycles to help keep condenser coil free from dirt, dust and debris. Keeping coils clean optimizes the unit's performance providing colder holding temperatures and increased energy efficiency. Regularly scheduled thorough cleaning of coils still recommended.
- Heavy-duty, PVC coated wire can support racks. Positions the open ice cream containers on top level to optimum service height.
- Designed to hold four (4) 9 ½" (242 mm) diameter, 3 gallon (12 L) ice cream containers in display area.
- Four (4) removable, molded plastic can skirts for 9 ½" (242 mm) diameter, 3 gallon (12 L) cans. Firmly holds cans in place and provides attractive, neat appearance.
- White, 6" (153 mm) wide, NSF approved, removable magnetic frost shields. Provides for easy clean up and removal of ice build-up on cabinet walls.
- White plastic night cover for case opening.
- Entire cabinet structure is foamed-inplace using Ecomate. A high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

STANDARD FEATURES

DESIGN

 True's visual dipping cabinets are uniquely designed to provide the user maximum functional reliability in an attractive merchandiser to brilliantly display and serve ice cream product.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC free) R404A refrigerant.
- Cold wall refrigeration system. Maintains -10°F to +8°F (-23.3°C to -13.3°C).
- Patented reversing condenser fan motor(s).
 Fan motor(s) reverse during defrost off cycles to help keep condenser coil free from dirt, dust and debris. Keeping coils clean optimizes the unit's performance providing colder holding temperatures and increased energy efficiency. Regularly scheduled thorough cleaning of coils still recommended.
- Condensing unit located behind rear grill on right side; slides out for easy maintenance.
- Manual defrost system; drain tube with hose connector conveniently located behind rear access panel.

CABINET CONSTRUCTION

- Exterior non-peel or chip white laminated vinyl clad steel; durable and permanent.
- 300 series stainless steel top with raised rim protects cabinet and helps minimize spillage to keep cabinet interior clean.
- Interior high quality white enamel powder coat finish on galvanized steel.

- Insulation entire cabinet structure is foamed-in-place using Ecomate. A high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Heavy duty, galvanized steel base rail with white enamel powder coat finish.

CANOPY/LIDS

- Stainless steel frame with tempered, single pane glass viewing window.
- Hinged, transparent acrylic dipping compartment service lid with full length handle. Top and back wiper gaskets for improved seal.

SUPPORT RACKS

- Two (2) heavy-duty, PVC coated wire can support racks 7" x 20 ½" (178 mm x 521 mm).
 Positions the open ice cream containers on top level to optimum service height.
- Each rack designed to hold two (2) 9 ½"
 (242 mm) diameter, 3 gallon (12 L) ice cream
 containers.

LIGHTING

- Safety shielded, fluorescent interior canopy lighting for brighter, shadow free illumination. Independent on/off switch.
- Cabinet lighting utilizes electronic ballast and T-8 bulbs for brighter illumination, longer bulb life and increased energy efficiency.

MODEL FEATURES

 White, 6" (153 mm) wide, NSF approved, removable magnetic frost shields. Provides for easy clean up and removal of ice build-up on cabinet walls.

- One (1) white plastic night covers for case opening.
- Four (4) removable, molded plastic can skirts for 9½" (242 mm) diameter, 3 gallon (12 L) cans. Firmly holds cans in place and provides attractive, neat appearance.
- NSF-7 compliant for open food product.

ELECTRICAL

 Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

RECOMMENDED OPERATING CONDITIONS

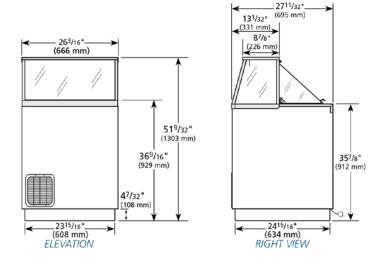

- TDC models are designed to operate in an air conditioned environment where temperatures do not exceed 75°F and 55% relative humidity.
- Units should be installed away from direct sunlight, rapid air movement and extreme temperature changes.

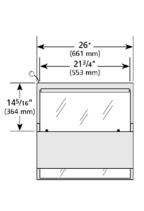

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.

- \Box 6" (153 mm) standard legs.
- ☐ 6" (153 mm) seismic/flanged legs.
- ☐ 2½" (64 mm) diameter castors.
- ☐ Dipper well kit (NSF approved).
- ☐ Lid locking kit (lock not included).
