TSID-36-2

Display Cases:
Single Duty Refrigerated Deli Case

TSID-36-2

- ▶ True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, and lower utility costs in an attractive display case that brilliantly displays deli meats and cheeses.
- ▶ Cabinet is NSF-7 certified to hold open food product.
- ▶ Oversized, factory balanced, refrigeration system holds 38°F to 40°F (3.3°C to 4.4°C). Gravity coil refrigeration system provides high humidity environment for exceptional preservation of meats and deli products.
- ▶ "Low-E", double pane thermal glass front display and self-closing rear doors provide maximum insulation value for greater efficiency and energy savings.
- ▶ Exterior - non-peel or chip white laminated vinyl; durable and permanent.
- ▶ Interior - attractive, NSF approved, white aluminum liner. 300 series stainless steel floor with coved corners.
- ▶ Case is equipped with front and rear light sources for maximum product display. Fluorescent lamps are low UV emitting to enhance product appearance and increase shelf life.
- ▶ Automatic defrost system; time-initiated, time-terminated.
- ▶ Entire cabinet structure is foamed-in-place using Ecomate. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

TSID-36-2

Display Cases: Single Duty Refrigerated Deli Case

STANDARD FEATURES

DESIGN

- True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, and lower utility costs in an attractive display case that brilliantly displays deli meats and cheese.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC free) 134A refrigerant.
- Gravity coil refrigeration system provides high humidity environment for exceptional preservation of meats and deli products.
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser; maintains cabinet temperatures of 38°F to 40°F (3.3°C to 4.4°C).
- Automatic defrost system; time-initiated, time-terminated.
- Condensing unit located behind grill in back of unit. Entire system slides out for easy cleaning and maintenance.

CABINET CONSTRUCTION

- Exterior - non-peel or chip laminated vinyl; white sides with black front and back grills.
- "Low-E", double pane thermal front viewing glass provides maximum insulation value for greater efficiency and energy savings.
- Stainless steel counter top provides surface for equipment such as registers and point-of-purchase novelties.
- Interior - attractive, NSF approved, white aluminum liner. 300 series stainless steel floor with coved corners.

- Insulation - entire cabinet structure is foamed-in-place using Ecomate. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.
- Front viewing glass slanted 12.52° to minimize reflection from overhead lighting enhancing your cold product presentations.

DOORS

- Rear door assemblies feature "Low-E", double pane thermal insulated glass. The latest in energy efficient technology.
- Each door fitted with 12" (305 mm) long handle.
- Self-closing doors. Sliding doors ride on stainless steel V-Channel with stainless steel bearings for smooth, even, positive closure. Doors fit within plastic channel frame.
- Front glass doors slanted 12.52° to minimize reflection from overhead lighting enhancing your cold product presentations.

SHELVING

- Two (2) adjustable, heavy duty PVC coated wire shelves. Top shelf dimension is 31 3/4" L x 17 1/2" D (807 mm x 445 mm). Bottom shelf dimension is 31 3/4" L x 19" D (807 mm x 483 mm). Four (4) chrome plated shelf clips included per shelf.
- Aluminum shelf support pilasters. Shelves are adjustable on 1/2" (13 mm) increments.

LIGHTING

- Case equipped with front and rear light sources for maximum product display. Fluorescent lamps are low UV emitting to enhance product appearance and increase shelf life.

- Cabinet lighting utilizes electronic ballast and T-8 bulbs for brighter illumination, longer bulb life and increased energy efficiency. Lamps are safety shielded.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- NSF-7 compliant for open food product.

ELECTRICAL

- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

RECOMMENDED OPERATING CONDITIONS

- TSID refrigerated models are designed to operate in an environment where temperatures and humidity do not exceed 75°F (24°C) and 55% relative humidity.

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.

- 6" (153 mm) standard legs.
- 6" (153 mm) seismic/flanged legs.
- 2 1/2" (64 mm) diameter castors.
- 4" (102 mm) diameter castors.
- Ratchet lock.
- Additional shelves.
- Remote cabinets (condensing unit supplied by others; system comes standard with 404A expansion valve and requires R404A refrigerant). Consult factory technical service department for BTU information. All remote units must be hard wired during installation.
