FEATURES / BENEFITS

■ STAINLESS STEEL CABINET CONSTRUCTION

The Turbo Air Super Deluxe model boasts a stainless steel interior and exterior (galvanized steel back & bottom). It guarantees the utmost in cleanliness and long product life. The Super Deluxe can add a touch of style to the most refined setting.

■ DURABLE STAINLESS STEEL DRAWERS

Drawers are easy to clean and assemble.

■ HOT GAS CONDENSATE SYSTEM

Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also prevents the overflow of condensate water.

■ HIGH-DENSITY POLYURETHANE INSULATION

The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.

■ EFFICIENT REFRIGERATION SYSTEM

Turbo Air's solid door freezers are designed with oversized and balanced (CFC Free R-404A) refrigeration systems. These include efficient evaporators and condensers for faster freezing and greater efficiency.

■ ERGONOMICALLY DESIGNED DOORS & DRAWERS

Customers' fatigue fades away with easy door grip and drawers that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience. ABS sheet door liners resist water condensation with thermal efficiency.

■ MAGNETIC DOOR GASKETS

Magnetic door and drawer gaskets are of one piece construction, removable without tools for ease of cleaning and replacement.

■ FREEZER HOLDS -5°F ~ -10°F FOR THE BEST IN FROZEN FOOD PRESERVATION
