SHORT SIDE DROP-IN: NSF7 REFRIGERATED COLD PANS

Short Side Drop-In: NSF7 Refrigerated Cold Pans

DESCRIPTION

The short side drop-in NSF7 refrigerated cold pans are designed for top-mount installation.

A full-perimeter drip edge contains spills and condensation within the stainless steel countertop area of the drop-in.

High-density polyurethane foam insulation surrounds the exterior of the well to provide the most efficient performance with energy savings.

A 3" (7.62 cm) recess lowers the food pan below the work surface to minimize the impact of ambient air. The 6 5/8" (16.8 cm) deep display well is designed to accommodate standard 12" x 20" (30.4 cm x 50.8 cm) pans up to 6" (15.24 cm) deep.

Refrigeration coils surround the exterior side walls of well for maximum cooling. Refrigerant is R134A to meet federal standards.

1" (2.5 cm) integrated drain is standard. Optional perforated false bottom.

Modular drop-in orders cannot be canceled or returned
